| Base Data | Local Order Number | MK9-221 |
| | Type | MK9-221 |
| | Features and benefits | <ul style="list-style-type: none"> - An easy to read display speeds adjustment and verification. - Thumb tab on larger tension knob for easy adjustment. - On the Mark 7, a larger knob sets the three variable tension levels (minimum, intermediate, and standard). The smaller knob fine tunes within the tension range. - The larger knob on the Mark 9 sets to two variable tension levels (standard and heavy). - The smaller knob fine tunes the tension setting. - Housings are manufactured from a high impact, glass reinforced nylon. - A double wall linkage adds more strength. - Tough chromium steel components ensure longevity. - MK7 & MK9 are military specified. - Single and dual lock-out features available for tensioning ranges. - Cable tie tension and cut-off tools reduce operator fatigue and speed assembly. - The Mark 7 features a one inch stroke, while the Mark 9 has a 5/8 inch stroke. - Both reduce trigger cycles required to install cable ties. - Ergonomic design on both tools ideally fit the operator's hand. Removable padded hand grips further reduce impact to the hand. - Low friction bearing mechanisms reduce hand effort and provide a smooth stroke. - Extremely light, the Mark 7 weighs only 10 ounces. The Mark 9 weighs just 13 ounces. - Quick tension adjustability for flush cut-off. |

| | Product Description | Specifically developed for maximum ergonomic and performance values, the Mark 7 and Mark 9 series tools combine reduced hand effort and durable components to ensure efficient assembly and a longer life cycle. The Mark 7 tools are used with T18 through T50 series HellermannTyton cable ties. The Mark 9 tools can be used with nearly every HellermannTyton cable tie. Able to accommodate ties to .530" in width, the Mark 9 is used with HellermannTyton's T18* series cable ties to the heavy duty ties, including the T250 series and EL-TY. High tension versions of both the Mark 9 and Mark 7 tools (MK9HT and MK7HT) offer the same design features as their standard counterparts but with higher cut-off tension capabilities. The Mark 9 and Mark 7 high tension tools both offer a 5/8" stroke. |
