Screw Shield

SKU: 103030006

Description

Screw shield is a wing-like shield that extends both sides of your Arduino or Arduino variants into sturdy and reliable screw terminal blocks.

On the digital pins side, it contains 18 terminals: 16 normal terminals and 2 extra GND. As to the Analog pins side, there are 16 terminals (12 normal terminals, 4 extra terminals for Vin, 2*GND and 5V) and 2 breakout through holes for 2 additional ADC pins. Sweetly, a special

extension block for SPI interface is included in this product to make it a truly stackable shield for other shields like TFT touch screen to mount on.

Features

- Arduino and Seeeduino compatible
- Extra ADC though holes and SPI extension interface
- Truly stackable
